

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, DC 20554

In the Matter of	§	
Developing a Unified Intercarrier	§	CC Docket No. 01-92
Compensation Regime	§	
	§	

**MOTION TO ACCEPT LATE-FILED COMMENTS
BY THE PUBLIC UTILITY COMMISSION OF TEXAS
(COMMENTS ATTACHED)**

The Public Utility Commission of Texas (PUCT) respectfully submits this Motion To Accept Late-Filed Comments with comments attached.

On July 25, 2006 the Federal Communications Commission (FCC) issued public notice that it is seeking comment on the intercarrier compensation reform plan (known as the "Missoula Plan") that was filed July 24, 2006 by the National Association of Regulatory Utility Commissioners' Task Force on Intercarrier Compensation. Comments were due to the FCC on October 25, 2006.

These comments are being filed after the comment due date because the Open Meeting schedule of the PUCT mandated that the comments be publicly approved on October 26, 2006, and the press of other business prevented the PUCT from authoring, reviewing and approving these comments at an earlier time. The PUCT therefore respectfully requests that the FCC approve this motion to accept the attached late-filed comments.

Respectfully submitted,

MARSHALL ADAIR

Director, Commission Industry Oversight
Division
